

# NZTR DIGITAL LICENCE CARDS

## Why the shift to digital licences?

New Zealand Thoroughbred Racing is delighted to announce its transition to the realm of digital licenses. After a series of successful trials, we've discovered an uncomplicated solution for ensuring that all license holders can conveniently carry their License ID details with them at all times. Having your digital license accessible on your phone will result in a seamless experience when asked to provide your ID at Racing Clubs, Tracks, Swabbing Facilities, Stable Audits, or any other scenario where it's needed.

## The reliability and convenience of Apple and Google Wallet

Apple and Google Wallet offer a convenient means to organise and utilise your digital Licensing Card and more, all in one place.

## Simplicity and Accessibility

Apple Wallet comes pre-installed on iPhone, iPod Touch, and Apple Watch, while Google Wallet can be easily obtained from the Google Play store and installed on all Android Phones and Wear devices (Lollipop 5.0+).

## How do I add this to my iPhone or Android phone?
